Alliance for action in education

Laxman Public School, Hauz Khas Enclave, played host to a delegation of 32 students and two teachers from Experimental School of Capital Normal University, Beijing, China. The visit was organised by Confederation of UNESCO Clubs and Associations of India.

A short presentation comprising orchestra items based on Indian ragas and Indian classical and folk dances gave the delegation a glimpse of the country's culture. Friendly basketball and football matches were played between the visitors and the host team. The visit encouraged exchange of ideas between the students of both the countries and served as a step towards creating global harmony and peace.
