

Laxman Public School
Holiday Homework
(2017-2018)
Class X
Subject: FIT

Instructions

1. Platform: Notepad & Web Browser
2. Submit Printouts containing HTML code and their output in File and soft copy of Web Pages in well labeled CD.
3. The first page of the file should have the following details:
 - Name of the Student
 - Class and section
 - Session
1. **Write HTML code to write the equation and mathematical formula below with HTML Tags.**

Formula: $(a+b)^2 = a^2 + 2ab + b^2$

2. **Observe the following web page and write the HTML code to generate it.**

Most popular types of roses in India are:

- **Alba roses**
- **Bourbon roses**
- **Centifolia roses**
- **China roses**
- **Climbing roses**
- **Damask roses**
- **English roses**
- **Floribunda roses**
- **Gallica roses**

Note the following points while generating the web page:

- Title of the page is "Roses in India".
- Font style for the page is "Times New Roman".
- Heading of the page is in blue.
- Use Bullets for unordered list.
