

Laxman Public School

Holiday Homework

(2018-2019)

Class VII

Subject: Computer

- **Revise HTML Tags.**
- **Activity:** Create Web Pages with HTML tags.

1. Create a simple web page giving some information of 'Renewable sources of Energy' with the following settings:
 - a. Horizontal lines should be drawn after each source to separate them.
 - b. Set any background colour.
 - c. Use any heading style to provide page heading.
2. Create a simple web page on the topic 'Our National Flower'. Set an image of the flower as the background attribute with body tag.

Instructions

1. Platform: Notepad & Web Browser.
2. Paste Printouts containing output and write HTML code in Computer Notebook.
