

HOLIDAY HOMEWORK

CLASS 4

Dear students and parents,

It's summertime when faces light up with a grin. As holidays begin, it's time for the children to play and enjoy. Free, unbound, high-spirited but safe at home.

Summer break is a vacation time that students eagerly await. So, now is the time to unlock the days creatively, making the most while at home. So, adopt a herb, a house plant or a flower, bake a cake, sing-along, paint and draw and compose your own song or take up your hobby as the school announces the summer vacation.

To ensure that the children have a constructive holiday, some holiday homework & projects have been given which will keep the children active and observant. These projects can easily be done by the children, and you could assist only where required. You can download the Holidays' Homework from the school website for your convenience. The holiday homework/projects will be part of the internal assessment.

Stay safe, stay healthy! Enjoy fun learning!
