

Introduction:

Laxman Public School is observing October as National Cyber Security Awareness Month. The theme for 2025 is “**Cyber Jagrit Bharat**”.

- Internet is the most interactive technological platform of this century. It has become an integral part of our daily lives. It is a learning and communication tool that offers us a wide range of opportunities.
- It is an invaluable source of knowledge and encourages creativity and imagination. Internet ethics involves our approach while using it for different purposes.
- We should be aware that we should always be honest and respect the rights and property of others on the web .
- Cyber safety is the safe and responsible use of information and communication technology. It is not just about keeping information safe and secure, but also about being responsible with that information, being respectful of other people online, and using good 'netiquette' (internet etiquette).

Tips

- Use safe search options while searching information on the Internet; also check facts before sharing or forwarding.
- While performing online banking, shopping or making online payment, check if the website's URL begins with 'https' (the "s" stands for "secure"), also, look for a green address bar or a security certificate (presented by an icon such as an unopened lock) in the browser window that ensures secure connection.
- Do not use same password for different online transactions.
- Use strong and unique password combinations of numbers, uppercase, lowercase letters and special characters for each account.

Tips

- Use separate email accounts for personal and official purpose. Never use your official email address for social media sites.
- Avoid using free, unsecured Wi-Fi for shopping or banking on the Internet and also for logging into your social media profiles.
- Delete old accounts that you do not use any more.
- Obtain software from trusted sources. Always scan files before opening them.
